Manual Stencil Printers

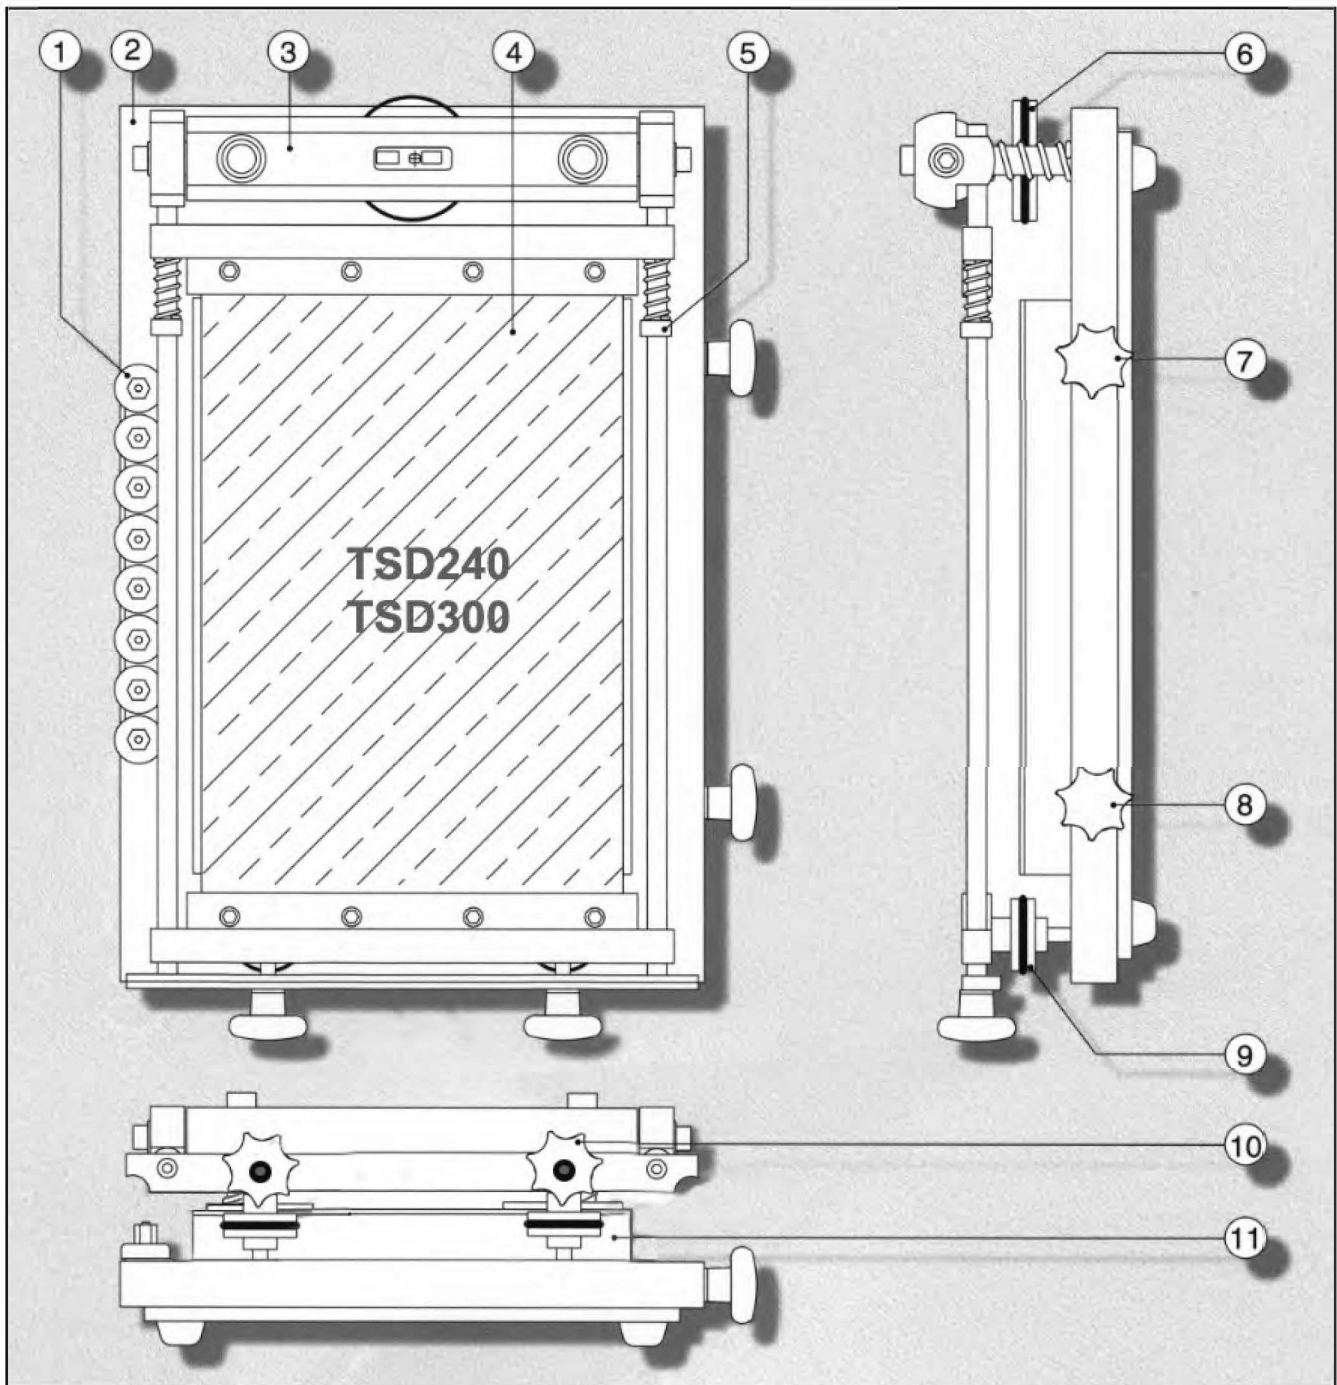

For pastes and adhesives

- Low-cost table model for small- and midsize-production.
- Ready-to-use with just a few grips
- Designed for universal usage - no need for special stencil-holes!
- Easy mounting with magnetic placeholders making double-sided printing possible, too.
- Short mounting times with unique positioning system.
- PCB-holder, transparent positioning device and squeegee already included!

Manual Stecil printer

For pastes and adhesives
